

To the FCC regarding the new broadcast service known as Low Power FM (LPFM) and it's impact on regional radio stations such as K-Love.

I would like to state the service K-Love provides to it's listeners is invaluable. It provides many services on a 24 hour basis all across the United States. I am not in favor of terminating these services for other unknown services and benefits.

K-Love broadcasts nationally but also has many local and community reminders throughout it's broadcasting which are beneficial to local listeners. Not only does it provide its' broadcasting commercial free but it provides comfort and support to many Christians as well as providing an subtle outreach to non-believers.

I think it would be a terrible travesty to replace such wholesome broadcasting with any new service. I listen to several stations which operate on this national format and would not like to see any of them lose any of their stations.

This quality of broadcasting is serious lacking on the air waves today. I will keep you and this decision in my prayers and hope this issue can be resolved to everyone satisfaction within God's will.

Thank you for the opportunity to present my views.

In his name,

Nancy M. Timm
